PROFESSIONAL SUMMARY

Results-driven QA Automation Engineer with over 2 years of hands-on experience across SDLC and STLC in Agile/Scrum environments. Expertise in Functional, Regression, Integration, System, Sanity, Smoke, and API Testing for healthcare SaaS products. Proficient in Selenium WebDriver with Java, TestNG, Cucumber BDD, Rest Assured, and Postman. Skilled in building scalable automation frameworks using Page Object Model and data-driven testing with reusable utility components. Experienced in backend validation using SQL and integrating automation suites with Jenkins CI/CD pipelines. Proven track record of increasing automation coverage from 40% to 70% and reducing production defects by 60%.

CORE SKILLS & TESTING EXPERTISE

- **Automation Testing:** Selenium WebDriver, Java, TestNG, Cucumber BDD, Maven, Page Object Model, Data-Driven Testing, Parallel Execution, ExtentReports, Reusable Utilities
- **Manual Testing:** Functional Testing, Regression Testing, Integration Testing, System Testing, Sanity Testing, Smoke Testing, Exploratory Testing, UAT Support
- **API Testing:** REST API Testing, Rest Assured, Postman, HTTP Methods (GET, POST, PUT, DELETE), JSON Parsing, Schema Validation, Response Assertions
- **Databases:** SQL, MySQL, SQL Server, Backend Data Validation
- **Defect & Project Management:** JIRA, Azure DevOps, Bug Life Cycle, Defect Triage, Root Cause Analysis
- **DevOps & Tools:** Git, Jenkins, CI/CD Pipelines, Version Control
- **Methodologies:** Agile Scrum, SDLC, STLC, BDD, Sprint Planning, Daily Stand-ups, Retrospectives

PROFESSIONAL EXPERIENCE

MatrixCare – Chennai

Software QA Engineer | Oct 2020 – May 2022

- Performed end-to-end testing across SDLC/STLC: Functional, Regression, Integration, System, Sanity, Smoke, and Exploratory Testing for multiple healthcare modules.
- Designed, automated, and executed 100+ UI and API test cases using Selenium WebDriver, Java, TestNG, Cucumber BDD, and Rest Assured, reducing manual effort by 50%.
- Built and maintained a scalable automation framework using Page Object Model, Maven, data-driven testing, and reusable utility components for improved maintainability.
- Automated REST API testing for GET, POST, PUT, DELETE endpoints with validations for status codes, headers, response bodies, and JSON schemas.
- Conducted backend and database validation using SQL queries to ensure data integrity across UI, APIs, and databases as part of System & Integration Testing.
- Managed complete Bug Life Cycle in JIRA and Azure DevOps: logged, tracked, retested, and closed high-priority defects, reducing post-release defects by 40%.
- Executed cross-browser testing and integrated automation test suites with Jenkins CI/CD pipelines for faster feedback and stable releases.
- Actively participated in Agile Scrum ceremonies including sprint planning, daily stand-ups, reviews, and retrospectives.

KEY ACHIEVEMENTS

- Increased automation coverage from 40% to 70% within one year through framework enhancements.
- Reduced production defects by 60% through improved Regression, Sanity, and System Testing coverage.

- Recognized for delivering high-quality QA solutions aligned with business goals in healthcare domain.

PROJECTS (AUTOMATION & API)

Selenium Automation Framework

- Developed a Selenium automation framework using Java, TestNG, Page Object Model, Maven, and reusable utility components for UI test automation.
- Implemented Data-Driven Testing with Excel, parallel execution via TestNG, and integrated ExtentReports for detailed HTML test reports.
- Designed modular structure to support Functional, Regression, and Smoke test suites with configurable test data and environment setup.

REST API Test Automation

- Automated REST API test suites using Rest Assured covering CRUD operations, schema validation, and response assertions for microservices.
- Validated status codes, headers, response bodies, and JSON schemas as part of Integration & System Testing.
- Built reusable request builders and response parsers; integrated suite with Jenkins for CI/CD execution.

CERTIFICATIONS

- Selenium WebDriver with Java – Basics to Advanced + Frameworks – Udemy | Issued Nov 2025
- Postman Crash Course | Learn API Testing – Udemy | Issued Aug 2024

EDUCATION

B.Tech in Computer Science Engineering

SASTRA University, Thanjavur | 2015 – 2019
